

The company PRONIC (€11 million in sales, 80% export and 69 employees) located in the heart of the Mont Blanc region has a worldwide reputation for its design of tapping and insertion solutions (equipment components) in the field of cutting and stamping.

As part of the development of its export business, PRONIC is looking for a

SALES ENGINEER
English and/or German
bilingual (French an asset)

Responsible of your sector, you are in charge of developing the turnover of a client portfolio and agents network. Guaranteeing their satisfaction, you ensure the promotion, offer adapted solutions for their needs, and realize the start of our applications at the customer premises (travel requirement 1 to 2 weeks per month). You will be actively involved in the development and the implementation of the sales and marketing strategy of your area.

Graduated from a mechanical engineering school or a technician with a significant experience (2 to 5 years), you have strong relationship skills, a sense of priorities and a recognized talent in industrial negotiations. Ideally, you have a first experience in the sales of high-end technical products and/or in the automotive industry.

If this proposal interests you, come and join a successful company, with a young and dynamic team, where you will benefit from an attractive compensation linked to your performance. You will also have flexibility in managing your working time and be trained with our tailored products.

Post Based in Haute-Savoie, FRANCE
